ℯ -Cruise WiFi Modul

Along with Your WiFi Module, You need to download theese two apps:

**Cruise Toolbox and Cruise Diagnostics
in App Store or Play Store.**

Toolbox   CruiseDiagnostics
1. Connect the 6 pin connector from WiFi module here. ⟶

2. Go to settings in Your phone and connect E-Cruise WiFi.   Login is 00000000

3. At the top af the app, there is a menu, where You can connect to e-cruise.

4. Press Get Data

5. Now You can see values and help functions.

6. On the back side of this ducument, You can see functionalities according to software versions.
